The Lincoln Academy Board of Trustees

Reviewed the

Teacher Performance Based Compensation Plan

and approved it on

Teacher Performance Based Compensation Plan

Lincoln Academy

Eligibility

All classroom teachers who work for Lincoln Academy from August 18, 2008 through May 22, 2009 will be eligible to receive performance pay.

Criteria

There are seven criteria areas. Each full time classroom teacher will be able to earn up to ten performance points in each area for a possible total of seventy performance points throughout the year. Half-Day classroom teachers will be eligible to earn up to 35 performance points (Their total will be divided in half). The criteria include a combination of team and individual areas.

Because Lincoln Academy is a K-9 public school, there will be different criteria for Junior High and Elementary teachers. The Criteria is as follows

Elementary

Student Growth
Parent Satisfaction
Administrative Evaluation
Employee Cost Effectiveness
Licensure
Grade Level Goal
Professional School Support

Junior High

Parent/Student Satisfaction Administrative Evaluation Employee Cost Effectiveness Licensure Junior High Team Goal Individual Goal Professional School Support

Evaluation Instruments and Assessments

Elementary

- Student Growth-
 - K- Kindergarten students are assessed at the first of the year using a
 Orten-Gillingham (research based method of teaching reading and writing)
 assessment (see pgs. 7-13) as well as Saxon (math) assessment (see pgs. 14-25). The same tests are administered at the end of the year to assess

- student growth. Teachers will receive points according to the percent of students who demonstrate expected growth throughout the year. For example if 83% of a teacher's students end the year reaching expected growth then the teacher will receive 8.3 points.
- O 1st Grade- students are assessed at the first of the year using a Scholastic Guided reading leveling assessment. as well as Saxon (math) assessment (see pgs. 14-25). The Scholastic assessment recommends using benchmark books and asks teachers to keep running records to assess student level. The same tests are administered at the end of the year to assess student growth. Teachers will receive points according to the percent of students who demonstrate expected growth throughout the year. For example if 83% of a teacher's students end the year reaching expected growth then the teacher will receive 8.3 points.
- o 2nd-6th Grade- Lincoln Academy has purchased North West Evaluation Association (NWEA) computer based testing programs for Math and Language Arts. The NWEA measures the progressive linear growth of students throughout the year. Students in 2nd-6th grade are tested three times a year in each of these categories. Teachers will receive points according to the percent of students who demonstrate expected growth throughout the year. For example if 83% of a teacher's students end the year reaching expected growth then the teacher will receive 8.3 points.
- Parent Satisfaction- Lincoln currently surveys parents at the end of each year to measure parent satisfaction. The survey would be adjusted to include questions about individual teachers (See pgs. 26-28). Teachers would receive points based on the percent of parents giving them a favorable report. For example if 90% of parents reviewed a teacher favorably they would be rewarded 9 performance points.
- Administrative Evaluation- The administrative evaluation is an extensive evaluation that considers classroom management, lesson preparation, student involvement, professionalism, and meeting individual needs. Teachers can receive a 0-4 on each item (see pgs. 29-35). Teachers would receive performance points for the percentage of threes or higher in each section. For example if a teacher had 95% of their evaluation sections scored at 3 or higher they would receive 9.5
- Employee Cost Effectiveness- Teachers will receive two performance points for each of the following:
 - o Being on time each day and work the hours required by their contract.
 - O Using six or less sick and personal days for controllable reasons. Teachers have 3 personal and 3 sick days each year.
 - o Give sufficient notice for planned absence and prepared lessons for substitute teacher
 - o Responsible use of school allocated supplies
 - Responsible management of school monies and parent volunteer investment with field trips.
 - All of the above will be measured by the administration and office support staff

- Licensure- Teachers will receive 5 points if they have a current teaching license and 5 points if they are working on the requirements for the next level. The Office manager who is over licensing will monitor and award the points.
- Grade level goal- Teachers will create a grade level goal that improve student learning. They will present the goal to the administration for approval. Once it is approved it will be recorded. If the goal is met, each teacher will be awarded 10 performance points. Administration will monitor the progress of the goal.
- Professional School Support- Teachers will be awarded:
 - o 2 points for each bullet
 - Supporting the school by working on assigned committees.
 - Updating SIS (Student Information Services) weekly.
 - o 1 point for each bullet
 - Attending August in-service before school starts
 - Attending back to school night
 - Providing activity booth for school fall carnival
 - Hosting October parent teacher conference
 - Hosting February Parent Teacher Conference
 - Attending in-service following the end of school in May.
 - o Administration and office staff will monitor the progress of the goal.

Junior High

- Parent/Student Satisfaction- Lincoln currently surveys parents at the end of each year to measure parent satisfaction. The survey would be adjusted to include questions about individual teachers (see pgs. 26-28). Lincoln would also administer end of semester surveys on each teacher to students. The office staff would administer the survey. Teachers would receive points based on the percent of parents and students giving them a favorable report. For example if 90% of parents and students reviewed a teacher favorably they would be rewarded 9 performance points.
- Administrative Evaluation- The administrative evaluation is an extensive evaluation that considers classroom management, lesson preparation, student involvement, professionalism, and meeting individual needs. Teachers can receive a 0-4 on each item (see pgs. 29-35). Teachers would receive performance points for the percentage of threes or higher in each section. For example if a teacher had 95% of their evaluation sections scored at 3 or higher they would receive 9.5
- Employee Cost Effectiveness- Teachers will receive two performance points for each of the following:
 - o Being on time each day and work the hours required by their contract.
 - O Using six or less sick and personal days for controllable reasons. Teachers have 3 personal and 3 sick days each year.
 - o Give sufficient notice for planned absence and prepared lessons for substitute teacher
 - o Responsible use of school allocated supplies
 - Responsible management of school monies and parent volunteer investment with field trips.

- o All of the above will be measured by the administration and office support staff
- Licensure- Teachers will receive 5 points if they have a current teaching license and 5 points if they are working on the requirements for the next level. The Office manager who is over licensing will monitor and award the points.
- Junior High Team Goal- Lincoln Academy is relatively small. It has approximately 200 Junior High students and 10 teachers. The junior high team will create a goal designed to improve student learning. They will present the goal to the administration for approval. Once it is approved it will be recorded. If the goal is met, each teacher will be awarded 10 performance points. Administration will monitor the progress of the goal.
- Individual Goal- Teacher would set a individual goal designed to improve student performance in their class. The goal would be presented to the administration for approval. Once it is approved it will be recorded. If the goal is met, the teacher will be awarded 10 performance points. Administration will monitor the progress of the goal.
- Professional School Support- Teachers will be awarded:
 - o 2 points for each bullet
 - Supporting the school by working on assigned committees.
 - Updating SIS (Student Information Services) weekly and turninhg in IEXEL (junior high reward program for on time assignments) reports on time
 - o 1 point for each bullet
 - Attending August in-service before school starts
 - Attending back to school night
 - Providing activity booth for school fall carnival
 - Hosting October parent teacher conference
 - Hosting February Parent Teacher Conference
 - Attending in-service following the end of school in May.
 - o Administration and office staff will monitor the progress of the goal.

Amount and Distribution of Performance Based Compensation

Lincoln would like to be allocated \$260,000. That is an allocation of \$481.81 per student. This would allow all teachers to receive up to \$10,000 in performance based compensation pay.

Because the amount allocated by the state is a large sum to be allocated at a per pupil basis, and the award amount will be based on the amount of eligible school districts and charter schools, it is impossible to know or suggest a school total amount awarded. It could be larger or smaller than the requested \$260,000. Therefore the allocated amount received will be designated as TOTAL.

On May 25, 2009 Lincoln Academy's Administration and Office staff will compile the final point amounts for each teacher. The teacher performance points will be added and the TOTAL will be divided by the total amount of performance points earned school wide to obtain a per point dollar value. The TOTAL will be redistributed to the teachers according to the per point dollar value multiplied by individual teacher performance points earned. This amount will be distributed to the teacher on top of their next paycheck.

For example, if Lincoln Academy were to be allocated \$158,000 from the state for performance based compensation and the total amount of teacher performance points school wide were 1488 then Lincoln Academy would divide \$158,000 by 1488 to get a per point value of \$106.19. If an individual teacher earned 58.7 points they would be awarded a performance pay bonus of \$6,232.93.

Process

Lincoln Academy's Performance Based Compensation Plan was created through the combined efforts of teachers, administration, parents, and board members. Parents, teachers, administration, and board members were solicited for input. Input was correlated, administration wrote the plan, and teachers, parents, and board members reviewed it before presentation to the board.

KINDERGARTEN READING SKILLS ASSESSMENT

Teachers should assess each student individually on phonemic awareness and visual and sound recognition of the alphabet.

- 1. Begin by asking the student to say (not sing) the alphabet in sequence.
- 2. Use the Reading Skills Assessments on the following pages to determine and record students' alphabet awareness.
- 3. Do not try to conduct all of the Skills Assessments in one sitting.
- 4. Record student results in each letter box. You can use a "y" for yes, a simple check mark, or any other mark you wish.
- 5. To assess handwriting ability, have each student write the letters they know on a piece of paper. Students who cannot spontaneously write letters can write their names or draw a picture.
- 6. Keep in mind that the goal by the end of kindergarten is to have documentation of students' ability prior to administering the Level One Initial Assessment.

Phonemic Awareness & Reading Skills

The most important skill to develop in kindergarten is phonemic awareness. Phonemic awareness is ability to analyze, produce, manipulate, and combine the smallest units of sound (phonemes) in a variety of ways, and to eventually connect the symbols that represent them to specific meanings. To achieve this objective, teachers will expose the students to a variety of auditory tasks. A list of examples follows.

PHONEMIC AWARENESS ACTIVITIES

Phoneme manipulation:

"What blended sounds would be left if the /p/ sound is taken away from 'pig?" -"ig."

"What word would we have if we began with the word "pig" and changed /g/ to /t/?" \rightarrow "pit."

Once sounds have been articulated, it is beneficial to use index cards or Elkonen boxes with chips markers (and eventually one letter written in a box or on a card) so students can manipulate the cards to create words. Blending strips can be used for auditory practice.

Word to word matching:

"Do 'cat' and 'cake' begin with the same sound? How about 'bat' and 'dad?'"

This exercise is very successful when pictures are used and students draw lines between two pictures that begin with the same sound.

Blending orally:

"What word is made if you blend these sounds together:

/p/,/o/,/t/?" -"pot"

"How about /s/ and /ing/?" →"sing"

Also ask students to split sounds: "What is the first sound in the word car?" \rightarrow "/c/"

"What is the last sound in the word 'bring?" \rightarrow "/ing/

Phoneme segmentation:

"What sounds do you hear in the word 'lid?" \rightarrow "/|/ /i/ /d/" "How about the word 'stop?" \rightarrow "/s//t//o//p/"

Phoneme Counting:

"How many sounds do you hear in the word 'time?" \rightarrow "3" "How many sounds do you hear in the word 'squint?" \rightarrow "5" "How about 'in?" \rightarrow "2" "How about 'splash?" \rightarrow "5"

Awareness of syllables:

"How many syllables do you hear in the word 'pencil?' How about the word 'telephone?"

Have students clap or pound syllables. They can use their names, or the names of objects in the room.

Rhyming:

Read rhyming books, asking children to listen for the words that rhyme. See if they can guess what the second word will be in the rhyming pair.

State words to be rhymed and have the children build upon each word.

Oddity tasks:

"Which first sound is different in the oral words 'lid,' 'rim,' and 'lit?'" \rightarrow "/r/" "Which final sound is different in words 'cat,' 'map,' and 'rat?" \rightarrow "/p/"

It may help to have picture representations of each word.

Phonemic awareness activities should be done regularly throughout kindergarten to strengthen language and reading skills. Phonemic Awareness in Young Children, by Adams, Foorman, Lundberg, & Beeler is an invaluable reference that provides activities for developing and evaluating phonemic awareness skills such as:

- Segmenting and combining sounds to demonstrate that spoken words consist of sequences of phonemes
- Rhyming sounds and clapping syllables
- The ability to substitute sounds appropriately and meaningfully

BEGINNING INSTRUCTION: RECOMMENDED GUIDELINES

In kindergarten it is strongly recommended to begin with the letter "c" in the sequence chart. The goal is to introduce one new concept per week. Teachers will begin teaching the sound/symbol relationship through direct instruction. Students should be provided with a visual cue and an activity to help solidify the sound/symbol relationship. In addition, the teacher should read books pertaining to that particular letter for reinforcement. (Refer to the training manual for specific examples of lesson plans.)

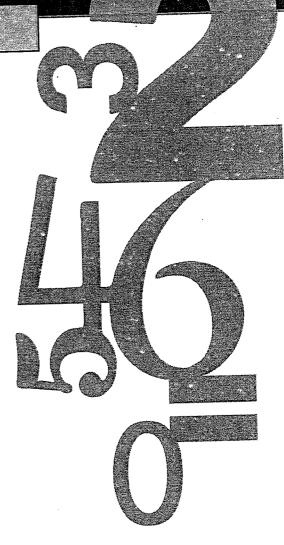

It is recommended to teach letter formation (lower case and capital) using large house paper, green crayons, and screens to provide a tactile sensation. The students will be tracing the letters with their finger, naming the letter and saying the sound. Once students can form letters correctly, they can use the sand for reinforcement. As students progress through the sequence chart, the letters on the large house paper can be made into an alphabet book. Students can draw or cut out pictures from magazines of objects that begin with the sound that is being taught.

Once children have learned the first four sounds, the teacher can begin to teach the three-part drill and vowel intensive. For the auditory section, students may be tracing over the letters on large house paper, prior to using the sand. The blending portion should begin with vowel/consonant blending before moving into consonant/vowel/consonant blending. Modeling is required for students to blend words accurately.

Red words should be introduced to students from the beginning. In kindergarten, it is recommended to begin teaching red words in small groups, introducing only one or two red words per week. Once students have learned the process, they can review and learn red words as a class. Children will use a red crayon to trace the dotted letters of the red words the teacher has prepared. It may be necessary to provide starting points for each letter. It is beneficial for the teacher to trace the dotted red word using an overhead projector. The goal for red words in kindergarten is for students to be exposed to high frequency words and to be able to recognize them. By then end of kindergarten, students may be able to write the red word at least once from memory.

· PLACEMENT INVENTORY

Math K-3

SAXON MATH K-3 PLACEMENT INVENTORY

INTRODUCTION

If you are uncertain which level of the primary materials to use, the first criterion to consider is the child's age. The following chart should be used to determine the recommended instructional level:

Age	Level
$4\frac{1}{2}-5\frac{1}{2}$	Math K
$5\frac{1}{2}-6\frac{1}{2}$	Math 1
$6\frac{1}{2} - 7\frac{1}{2}$	Math 2
$7\frac{1}{2} - 8\frac{1}{2}$	Math 3

Exceptions

If a child has significant learning problems or has received little or no prior math instruction, consider beginning at a lower level than what is recommended on the chart.

If a child has received prior math instruction and you consider the child's ability and understanding of math concepts to be exceptional for his or her age, consider administering this primary placement inventory to determine whether the child should begin at a higher level than what is recommended on the chart.

DIRECTIONS FOR ADMINISTERING THE PRIMARY PLACEMENT INVENTORY

- This is not intended to be an end-of-the-year test, and it should be used only with children who have not previously been in a Saxon mathematics program.
- Administer the inventory to one child at a time in a quiet, calm environment. You may wish to have someone else present to record the child's responses and comments.
- Read through the questions and prepare all materials prior to beginning the inventory.
- Follow the instructions and dialogue on the following pages. Answers are shown beside the questions.
- Depending on the answer, the child will receive 0 or 1 point for each question or set of questions. (See the boxed numbers.) Add the points at the end of each section for proper scoring.
- Before beginning, explain to the child that this is an opportunity for you to find out what the child already knows.
- This is not a teaching situation. Do not correct the child when he or she responds incorrectly or provide hints when the child hesitates. Record the child's answer without indicating to the child whether the answer is correct. Praise the child for focusing on the task and listening carefully.
- Begin with Part A of the Placement Inventory. At the end of each section, read the directions to determine whether to continue.

PART A

materials

Master P-1 (Cut apart the box of shapes, the number cards, and the paper strips.) 20 pennies, 2 nickels, 4 dimes

1. IDENTIFYING SHAPES

- Point to the square from Master P-1.

 "What shape is this?"
- Repeat with the triangle, circle, and rectangle.

2. Counting by 1's to 100

"Count as high as you can."

• Stop the child at 100. The child's last correct number is _____

		1 🎚	
Counts to 100 correctly:			
Counts to 100 correctly:

5. IDENTIFYING COINS • SORTING • IDENTIFYING MOST AND FEWEST

- Put a penny, nickel, and dime on the table.
- Point to each coin and ask:
 - "What do we call this?"
- Put 6 pennies, 2 nickels, and 4 dimes in a mixed pile on the table.
 - "Sort these coins."
- If the child does not know the meaning of the word sort, say the following:
 - "Put the pennies in one pile, the nickels in another pile, and the dimes in a third pile."
- Allow time for the child to do this.
 - "How many dimes do you have?"
 - "Which coin do you have the most of?"
 - "Which coin do you have the fewest or least of?"

TOTAL POINTS PART B:

If the child scores 10–13 in Part B, give Part C of the assessment. If the child scores 0–9 in Part B, stop here and begin with Math 1.

PART C

materials

Master P-3

5 quarters, 5 dimes, 5 nickels, 5 pennies
Ruler with inch and centimeter scale

1. WRITING NUMBERS • ADDING USING MENTAL COMPUTATION

- Use the back of Master P-3.
 - "Write the number 47."
 - "What is 1 more than 47?" (48)
 - "Write the number 16."
 - "What is 1 less than 16?" (15)
 - "Write the number 35."
 - "What is 10 more than 35?" (45)
 - "Write the number 83."
 - "What is 10 less than 83?" (73)

PART C (CONTINUED)

2. COUNTING MONEY: PENNIES, NICKELS, DIMES, AND QUARTERS

- Give the child 4 dimes, 3 nickels, and 2 pennies.

 "How much money is this?" (57¢)
- Give the child 4 quarters, 10 dimes, 10 nickels, and 10 pennies.

"Show 17¢ using the fewest coins." (1 dime, 1 nickel, and 2 pennies)

"Show 65¢ using the fewest coins." (2 quarters, 1 dime, and 1 nickel)

Count the money incorrectly: 0

Lincoln Academy

January 4, 2008

Dear Lincoln Academy parent,

Greetings from Lincoln Academy! We hope you and your child(ren) are enjoying this wonderful school year. It has been our pleasure to serve you this year. We would like to invite you to complete the attached survey. Lincoln Academy is always striving to improve and continue its history of academic success. Our mission continues to be:

"To inspire children to love learning and to empower them to explore and achieve their individual potential."

In our efforts to enhance your child's education, we need your feedback. Please offer your suggestions and reasonable ways we can improve. Your input will benefit the school and our students. The success of your child(ren) is the central goal of Lincoln Academy.

Please complete the survey, and return it in the attached envelope (should we specify where). Feel free to make additional copies of the survey if you want to comment on several staff members. Extra copies will also be available at the front desk. The deadline for all surveys is January 18, 2008. We encourage you to return your completed survey with your re-enrollment paperwork January 8-10, 2008. If you have questions about this survey or would like to turn in this survey electronically, contact <a href="mailto:ma

Warm regards,

Lincoln Academy Board of Trustees

Lincoln Academy

Teacher Observation Evaluation

Explanation of the Rubric

- 0- Unsatisfactory- Does not satisfy expectations, requirements, demands, and performance of a Lincoln Academy Employee. Could be insubordinate or defiant.
- 1- Needs Attention- Additional effort and attention needs to be applied. Additional training or research should be sought.
- 2- Proficient- Competant, skilled, meets expectations and requirements.
- 3- Professional- Above average skill shown. Goes above and beyond expectations.
- 4- Outstanding- Superior skill, model for others, extra time and effort is obvious in classroom performance.
